

HURRICANE ARMAGEDDON

FOR ≥ 5

MAG 10

LEV III

One of the most disastrous meteorological events ever recorded on the face of the Earth. Obviously almost unpredictable because it was generated by a combination of events that not even in the cinema... in fact a series is already planned on Netflix!

Did you forecast the event? :: FOR ≥ 5?											
PHASE I											
Yes	Halve Population loss										
No	Damage +2										
PHASE II	Math wealth and damage :: MAGNITUDO - MITIGATION =										
=	10	9	8	7	6	5	4	3	2	1	0
wealth	-50	-45	-40	-40	-30	-20	-15	-10	-5	0	0
DAMAGE	10	9	8	8	7	6	6	6	5	5	4
PHASE III	Math population and happiness :: DAMAGE - RESPONSE =										
=	10	9	8	7	6	5	4	3	2	1	0
populat.	-90	-80	-70	-65	-45	-20	-10	-5	-5	0	0
happiness	-50	-50	-40	-35	-30	-25	-20	-15	-10	-5	0

APOCALYPTIC EARTHQUAKE

FOR ≥ 9

MAG 10

LEV III

One of the strongest earthquakes ever recorded in living memory. In the past, earthquakes of this type have completely leveled entire cities.

Did you forecast the event? :: FOR ≥ 9?											
PHASE I											
Yes	Halve Population loss										
No	No additional effect										
PHASE II	Math wealth and damage :: MAGNITUDO - MITIGATION =										
=	10	9	8	7	6	5	4	3	2	1	0
wealth	-70	-50	-40	-30	-20	-20	-10	-10	-5	0	0
DAMAGE	10	9	9	8	8	7	7	5	4	3	2
PHASE III	Math population and happiness :: DAMAGE - RESPONSE =										
=	10	9	8	7	6	5	4	3	2	1	0
populat.	-80	-75	-65	-45	-25	-10	-5	-5	0	0	0
happiness	-55	-50	-45	-40	-35	-25	-20	-20	-15	-5	0

SEISMIC SWARM

FOR ≥ 3

MAG 4

LEV I

An earthquake swarm with increasing intensity culminates in a strong shock.

Did you forecast the event? :: FOR ≥ 3?											
PHASE I											
Yes	Population loss is 0										
No	No additional effect										
PHASE II	Math wealth and damage :: MAGNITUDO - MITIGATION =										
=	10	9	8	7	6	5	4	3	2	1	0
wealth								-5	-5	0	0
DAMAGE								3	2	2	1
PHASE III	Math population and happiness :: DAMAGE - RESPONSE =										
=	10	9	8	7	6	5	4	3	2	1	0
populat.								-10	-5	-5	0
happiness								-15	-10	-5	0

FLASH FLOOD

FOR ≥ 4

MAG 3

LEV I

It is difficult to predict due to sudden changes in the weather, but it is not very intense. It is becoming more frequent.

Did you forecast the event? :: FOR ≥ 4?											
PHASE I											
Yes	Population loss is 0 and increase Happiness by 5										
No	No additional effect										
PHASE II	Math wealth and damage :: MAGNITUDO - MITIGATION =										
=	10	9	8	7	6	5	4	3	2	1	0
wealth								-20	-15	-5	0
DAMAGE								3	2	1	0
PHASE III	Math population and happiness :: DAMAGE - RESPONSE =										
=	10	9	8	7	6	5	4	3	2	1	0
populat.								-25	-20	-15	0
happiness								-20	-20	-15	0

HURRICANE KATRINA

FOR ≥ 2

MAG 10

LEV III

A devastating hurricane capable of flooding entire cities and wiping out the most modest hydraulic defenses.

PHASE I		Did you forecast the event? :: FOR ≥ 2?										
Yes	Halve Population and Wealth loss											
	No	Response cannot be properly activated and is capped at 3										
PHASE II		Math wealth and damage :: MAGNITUDO - MITIGATION =										
=		10	9	8	7	6	5	4	3	2	1	0
wealth		-50	-45	-40	-35	-30	-25	-20	-15	-10	-5	0
DAMAGE		10	9	8	7	6	5	4	3	2	1	0
PHASE III		Math population and happiness :: DAMAGE - RESPONSE =										
=		10	9	8	7	6	5	4	3	2	1	0
populat.		-90	-80	-70	-60	-50	-40	-30	-20	-10	0	0
happiness		-90	-80	-70	-60	-50	-40	-30	-20	-10	0	+10

MULTIPLE MUD FLOWS (Sarno 1998)

FOR ≥ 3

MAG 7

LEV II

With little warning, a very heavy rain hits the mountains, literally "melting" the ground that covers them. Lose -1 MIT (Landslides) for damage to defensive structures

PHASE I		Did you forecast the event? :: FOR ≥ 3?										
Yes	Population loss is 0 and increase Happiness by 5											
	No	Reduce Population by 5										
PHASE II		Math wealth and damage :: MAGNITUDO - MITIGATION =										
=		10	9	8	7	6	5	4	3	2	1	0
wealth					-20	-16	-15	-10	-10	-5	-5	0
DAMAGE					7	6	5	5	4	3	2	0
PHASE III		Math population and happiness :: DAMAGE - RESPONSE =										
=		10	9	8	7	6	5	4	3	2	1	0
populat.					-30	-20	-15	-10	-10	-5	0	0
happiness					-60	-50	-40	-30	-20	-10	0	+5

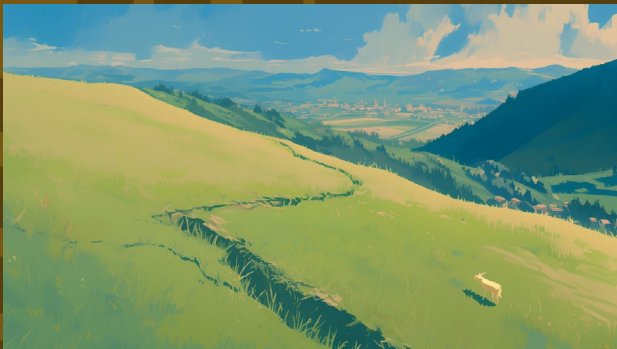

DSGSD

FOR ≥ 3

MAG 10

LEV III

DSGSD means Deep-Seated Gravitational Slope Deformation. What? Not a landslide, but a superlandslide! An entire sector of Mount Crumbly, including houses and roads, had been slowly sliding down for years, but now it has totally collapsed!

PHASE I		Did you forecast the event? :: FOR ≥ 3?										
Yes	Halve Population loss and reduce Wealth loss by 5											
	No	Reduce Wealth and Population by 10										
PHASE II		Math wealth and damage :: MAGNITUDO - MITIGATION =										
=		10	9	8	7	6	5	4	3	2	1	0
wealth		-50	-40	-30	-25	-20	-15	-15	-10	-10	-5	0
DAMAGE		10	9	8	7	6	5	4	3	2	1	0
PHASE III		Math population and happiness :: DAMAGE - RESPONSE =										
=		10	9	8	7	6	5	4	3	2	1	0
populat.		-70	-60	-55	-45	-30	-25	-20	-15	-10	0	0
happiness		-60	-50	-45	-35	-30	-25	-20	-15	-10	0	0

STORM

FOR ≥ 3

MAG 3

LEV I

A wet front is coming from the north: cold and rain for the weekend!

PHASE I		Did you forecast the event? :: FOR ≥ 3?										
Yes	Population loss is 0 and halve Wealth loss											
	No	Reduce Happiness by 5 (but do not go beyond -30)										
PHASE II		Math wealth and damage :: MAGNITUDO - MITIGATION =										
=		10	9	8	7	6	5	4	3	2	1	0
wealth									-20	-15	-5	0
DAMAGE									3	2	1	0

HURRICANE JOE

FOR ≥ 1

MAG 4

LEV I

Among hurricanes, it is the least dangerous: it can be seen coming from far away and is not very intense.

PHASE I		Did you forecast the event? :: FOR ≥ 1?											
Yes		Reduce the loss of Population by 15											
	No	Reduce Happiness by 5											
PHASE II		Math wealth and damage :: MAGNITUDO - MITIGATION =											
=		10	9	8	7	6	5	4	3	2	1	0	
wealth								-20	-15	-10	-5	0	
DAMAGE								3	2	1	1	0	
PHASE III		Math population and happiness :: DAMAGE - RESPONSE =											
=		10	9	8	7	6	5	4	3	2	1	0	
populat.									-30	-20	-10	0	
happiness									-25	-15	-10	0	

EARTHQUAKE 5 RICHTER

FOR ≥ 6

MAG 5

LEV II

A fault moves underground. And it generates several earthquakes. You lose -1 MIT for damage to buildings that are now more vulnerable to earthquakes.

PHASE I		Did you forecast the event? :: FOR ≥ 6?											
Yes No	Halve population loss												
	No additional effect												
PHASE II		Math wealth and damage :: MAGNITUDO - MITIGATION =											
=	10	9	8	7	6	5	4	3	2	1	0		
wealth						-20	-15	-10	-5	0	0		
DAMAGE						6	5	4	3	2	1		
PHASE III		Math population and happiness :: DAMAGE - RESPONSE =											
=	10	9	8	7	6	5	4	3	2	1	0		
populat.						-35	-30	-25	-15	-5	0	0	
happiness						-30	-25	-20	-15	-15	-10	0	

EARTHQUAKE 6 RICHTER

FOR ≥ 6

MAG 6

LEV II

A very strong and sudden shock, right in the middle of the night.

PHASE I		Did you forecast the event? :: FOR ≥ 6?											
Yes	No	Halve population loss											
No		No additional effect											
PHASE II		Math wealth and damage :: MAGNITUDO - MITIGATION =											
=		10	9	8	7	6	5	4	3	2	1	0	
wealth						-50	-40	-30	-20	-10	0	0	
DAMAGE						7	6	6	5	3	3	2	
PHASE III		Math population and happiness :: DAMAGE - RESPONSE =

LEVEL III
EVENTS

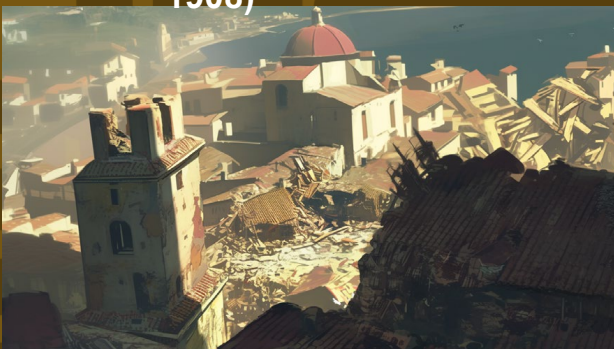

CATASTROPHIC EARTHQUAKE (Messina 1908)

FOR ≥ 5

MAG 10

LEV III

A magnitude 7 earthquake, further amplified by the soft soils on which the buildings are constructed. In addition, the quake causes a 13-meter tsunami that sweeps through areas near the coast. Earthquakes are unpredictable, but the tsunami could be anticipated.

PHASE I		Did you forecast the event? :: FOR ≥ 5?									
Yes	The maximum loss of Population this turn is -15										
No	No additional effect										
PHASE II		Math wealth and damage :: MAGNITUDO - MITIGATION =									
=	10	9	8	7	6	5	4	3	2	1	0
